Guidelines for Technical Poster Presenters

All Geo-Congress 2019 poster presentations will be held
Monday, March 25 and Tuesday, March 26, 3:30 – 5:30 pm,
in Hall E.

Preparing Your Poster

- Each poster will be allocated to one-half of one side of a standard, freestanding bulletin board that will look something like this: http://www.ops-eventrentals.ca/product-images/0/4491.jpg

- Your poster should fit within a space 4 feet high x 4 feet long, but there are no limitations on the design itself. Basic headings and figure titles should be in font sizes large enough to be read from a distance of 3 to 5 feet. We expect you to present on the paper approved for the Proceedings, and that any commercial content of your material will be kept to a minimum.

- **There are no required formats, colors, logos, or templates for your presentation**. (*If you have not yet made many posters in your career, a google search on the phrase "scientific posters" brings up many sources of good design advice.*)

Hanging Your Poster

- Bring your poster to Hall E between 2:30 pm and 3:00 pm on the day of your presentation.

- You will be assigned to a specific board and specific day. Thumbtacks and cellophane tape will be available, and G-I staff will be present to answer questions and provide assistance.

Presenting Your Poster

- During the poster session, we expect you to be near your poster to discuss your work with other attendees, so please return to your poster at least 5 minutes before the session start time.

Removing Your Poster

- Please leave your poster in place until the end of the poster session. Please remove it at 5:30 pm when the poster session ends.

- Any posters left on the boards at the end of the day will be discarded.

Questions?

- Please contact Caitlin Galietti at cgalietti@asce.org with any questions or to let the Geo-Institute know you will not be attending the conference.
